

EXHIBIT B

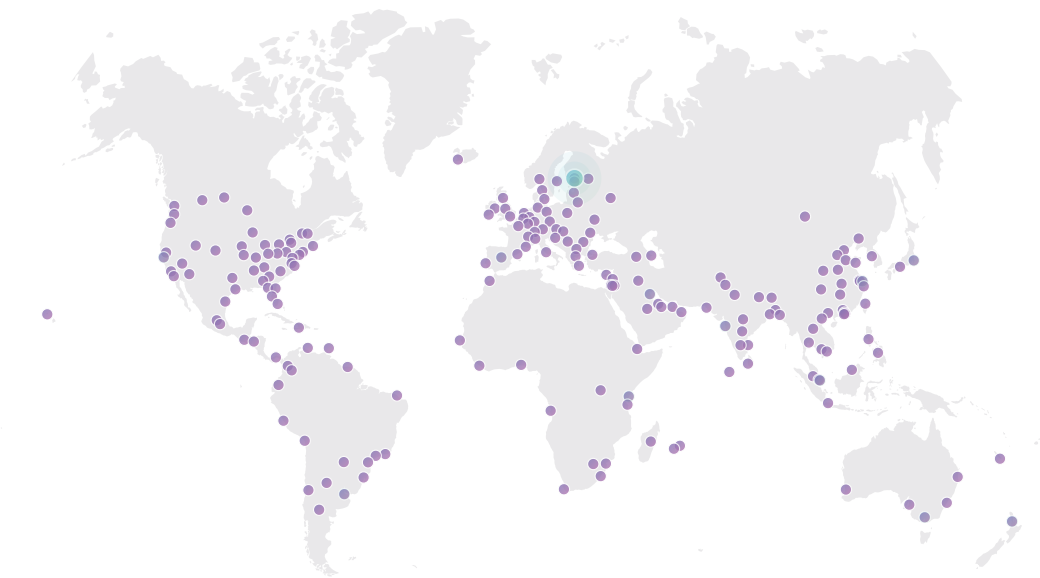

Case No. 20-CV-05666-RSL

(Exhibit B to Declaration of Frank Scardino)

The Cloudflare Global Anycast Network

The Cloudflare network spans over 200 cities in more than 100 countries. [View system status >](#)

The larger the network, the better performance and security we can deliver to our customers.

Each location improves the performance, security and reliability of millions of Internet properties, as we expand our surface area to fight growing attacks and serve web requests even closer to the Internet user.
